

EMMAR ROAD SERVICES

Delivering excellence in heavy equipment, infrastructure, and road construction since 2004.

About Us

Founded

Established in 2004 as a proud member of the Zaedan Group

Core Expertise

Enabling works, mountain cutting, earthwork, and road construction

Our Strength

Experienced team backed by a comprehensive fleet of heavy machinery

Our Vision & Mission

Vision

Leveraging our expertise to deliver premium-quality services at competitive rates, establishing EMMAR as a market leader in heavy equipment and infrastructure across the region.

Mission

Your one-stop partner for infrastructure excellence—delivering best-in-class execution on every project, from first cut to final finish.

Solutions

Our Fleet

Excavation Power

Kobelco Excavators — 38-ton capacity with grab & breaker attachments for precision earthwork

Site Levelling & Grading

Motor Graders & Dozers for large-scale site shaping

Heavy Lifting Capabilities

Fuwa 50-ton Crawler Crane

Equipped with grab attachment for versatile heavy-lift operations

Sany 50-ton Mobile Crane

Truck-mounted for rapid deployment across industrial & infrastructure sites

Zoomlion 50-Ton Crawler Crane

Equipped with grab attachment for versatile heavy-lift operations

Precision Lifting

Engineered rigging solutions for complex industrial & infrastructure projects

Transport & Logistics

- FH 480, FH 440, FM 440 – flagship long-haul and heavy haulage trucks built for demanding terrain
- 3–4 axle Lowbed Trailers up to 100-ton capacity; Tipper Trailers at 36 cubic meter volume
- Complete logistics solution for seamless project execution and on-time delivery

Specialized Equipment

EMMAR's specialized attachment systems and custom tooling unlock solutions for projects that demand more than standard machinery.

- Hydraulic breakers & rock grabs for hard-rock mountain cutting
- Precision rigging & attachment systems for critical lifts
- Custom solutions engineered for complex, non-standard projects

Key Completed Projects

01

Muscat Grand Mall

Access roads & external parking infrastructure

03

Rusayl Industrial Area

Mountain cutting & plot leveling at scale

05

Boshier

Building access road construction

02

AlZahra College & Board Building

Full site preparation works

04

Halban, Samail & Misfah

Multiple site development projects across key growth corridors

06

Royal Oman Police

Radar, camera & gate installation — Ghala & Buraimi

Operations in Action

Advanced Capabilities

Our Track Record

20+

Years of Operation

Delivering since 2004

20+

Heavy Machinery Units

Supporting project timelines and KPIs

6+

Major Projects

Across Oman's key sectors

100T +

Max Haul Capacity

Lowbed trailer fleet

85T +

Max Crane Lift
